

FROM LULU

I loved making this book and I hope you enjoy using it just as much. It's full of crazily cute animals that are quirky and fun, but super-simple to draw. All you have to do is follow five steps that use easy shapes and marks. There's room for you to 'mix it up' and create your own creatures and colour schemes. It's all about developing your signature style.

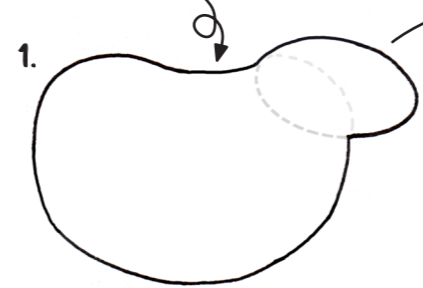

Remember, your imagination is as unique as a unicorn!

THE STEPS

The clear, step-by-step instructions for each animal in this book are easy to follow.

1. Outlining the body & head gives you a great starting point. Use a pencil to create your initial drawing.

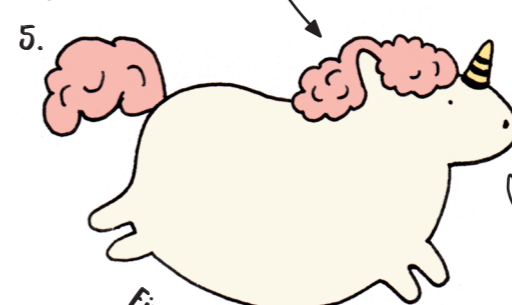

Grey dotted lines show you the simple shapes that form each animal.

Rub out the pencil lines you don't need.

Go over the outline in pen if you like.

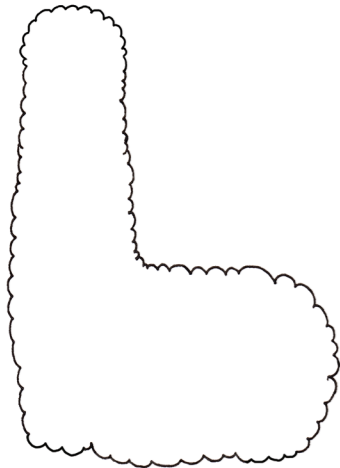

Finally, add colour.

NOW PICK UP YOUR PENCIL AND DRAW!
