Maths in Bite-sized Chunks

Chris Waring

Keynote

In *Maths in Bite-sized Chunks*, Chris Waring proves that it's easy to break the subject down into accessible, understandable information, much of which, in fact, we use in one way or another every day of our lives.

Description

Let the real world show you how maths works.

Maths is often cited as the 'most difficult' or 'complex' subject to study, many people admitting to a wariness that was probably ingrained into them in their schooldays. In *Maths in Bite-sized Chunks*, Chris Waring proves that it's easy to break the subject down into accessible, understandable information, much of which, in fact, we use in one way or another every day of our lives.

Each chapter takes readers through the theory, demonstrating how to master it with worked-through problems and examples from the real world. Topics that once seemed impenetrable suddenly become relatable and easier to unpick. So whether it's algebra or statistics that once had you flummoxed, get ready for a new way of being mathematically minded.

Sales Points

- Covers all the key topics, from algebra to probability and geometry to statistics, and more
- The theory for each topic is demonstrated with worked-through problems and real-world examples, and text boxes throughout supply fun maths trivia
- Readers don't need any prior knowledge of maths to slowly build up their understanding to above GCSE level
- Chris Waring is the author of *I Used to Know That: Maths* (33,000 copies sold) and *From 0 to Infinity in 26 Centuries* (17,000 copies sold)
- The Michael O'Mara Books 'Bite-sized Chunks' series has sold 657,000 copies worldwide in all formats to date

Author Biography

Chris Waring was born in London. After a degree in Mechanical Engineering at Imperial College London and a short yet disastrous career as a headhunter, he became a maths teacher. Since then he has taught small children and Oxbridge candidates and everybody in between. He has written *I Used to Know That: Maths* (2010) and *From 0 to Infinity in 26 Centuries* (2012) for Michael O'Mara Books. He lives in York.
