Sherlock Holmes Day

22nd May 2023

Puzzle 1

Who are Sherlock Holmes and Dr Watson?

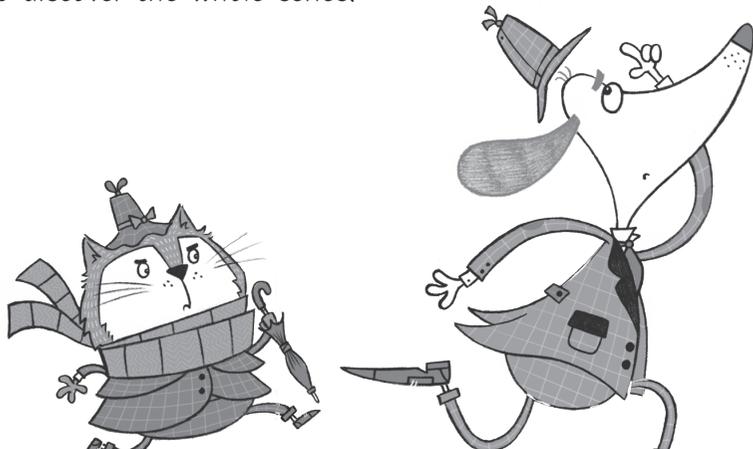

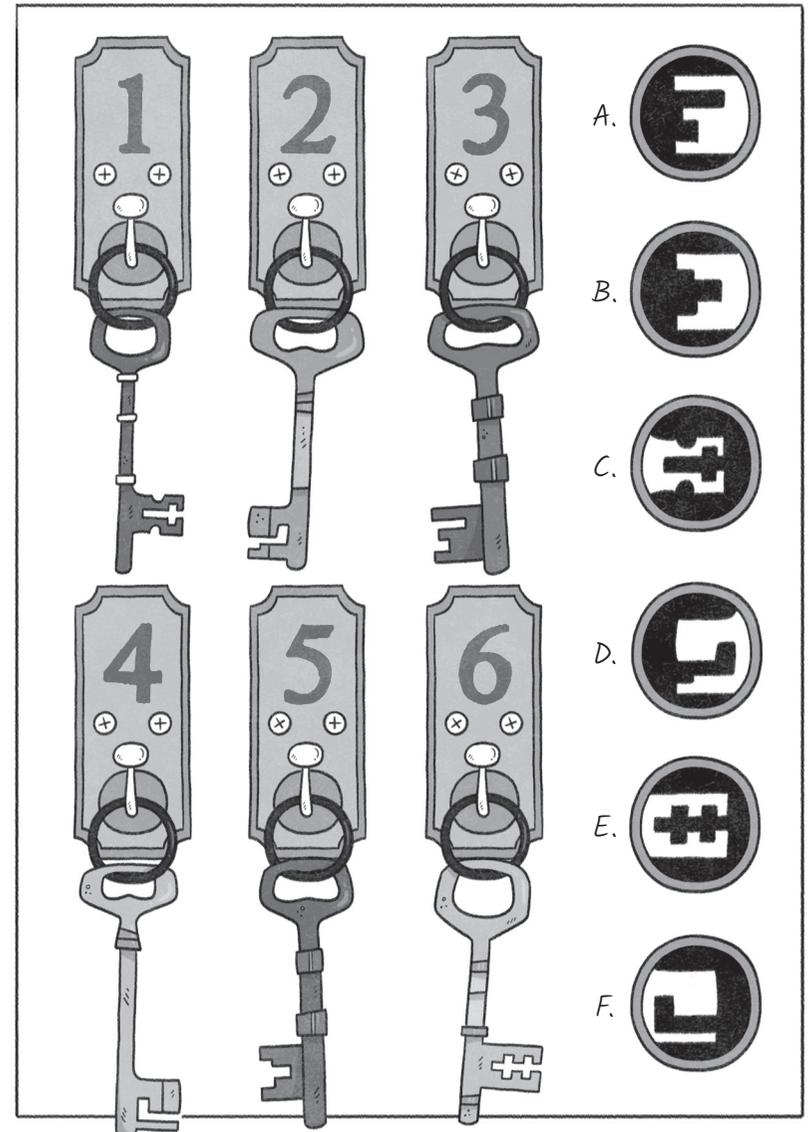

Holmes and Dr Watson are private detectives who featured in a long series of mystery stories by Arthur Conan-Doyle, which were published between 1887 and 1927.

One of the things that makes the **Sherlock Holmes** stories so popular is the relationship between Holmes and Dr Watson. Sherlock Holmes is incredibly clever and can spot clues in a crime scene that no one else can - even the police have to ask for his help. Watson is intelligent too, but he's always a few steps behind his friend.

In the **Sherlock Bones** series, this relationship takes a turn for the furry. Dog-detective Bones and his feline assistant Dr Jane Catson solve crimes all over the world, sniffing out clues and catching culprits. With puzzles woven through the adventure of each book, readers can help Bones and Dr Catson catch each culprit.

In these pages, test out your detective skills and try some puzzles from the books, then scan the QR code on the front to discover the whole series!

Can you match each of the keys below to the correct lock?

Puzzle 3

First, fold the page in half to hide the questions!
Study the passengers' passport photos for two minutes,
then turn the page to see how much you can remember.

Fold here

Had your two minutes? Great!
Now answer the questions below.

1. How many of the passengers are wearing hats?
2. Who is wearing a necklace - Florence or Annabelle?
3. Gerald the panda has a flowery shirt - true or false?
4. One character has their eyes closed. Can you name them?
5. Does Walter the lion look excited or nervous?
6. Which character has a moustache - Teddy or Gerald?
