

The Jurassic Period

150 million years ago

Uh oh! This time Maxwell really has gone too far - too far into the past that is. Miranda's about to complain about how hot and sticky it is, when she sees that this is the least of her worries. They're surrounded by giant dinosaurs ...

There's Triceratops with his horny head, and spiny-backed Stegosaurus. Even the little dinos look ready to stomp or chomp on a tasty meerkat snack. Eek!

Kevin's sitting smugly in the branches of a tree, but when ferocious Allosaurus comes crashing into view, even he thinks it's time to go.
